Perception from our exhibitors

Thank you for the excellent opportunity to exhibit at the last moment at the Africa Pharma Expo. We have thoroughly enjoyed the experience and have managed to engage with the best possible potential and existing clientele. The event was well managed and attended. My compliments to you and your competent team. Enjoy the rest of your stay in South Africa and travel safe!

Sonja Strydom
Country Manager, Esco Technologies Pty. Ltd.

The show was well organized and thank you for the co-operation extended on the site.

There were quality visitors and new contacts were generated. I suppose there needs improvement in the promotion of the show and the attractiveness of the show for the visitors.

Good luck for the next year!

I can say my impression is that we had a very successful event. We were able to have quality conversations with various stakeholders. The people we spoke to were a mixture of existing customers and partially new contacts.. This is a great mixture and will hopefully add to our existing business. Having had a local contact helped – people associate easier with local people. With the limited time we had to organise the seminar we couldn't make full use of her potential. I believe the seminar contributed to get a number of people to the event and who remained possibly a bit longer. All in all I would say – well done!

Sascha Rother, basan South Africa

A value creating experience. Very well organized. Many important companies attended, which has helped us to commence our work in South Africa.

Thank you
